# Simple tips for easy eyebrows

STONNINGTON LEADER December 2, 2002

**C**ARMEN Duma says creating the ultimate glam look may be as simple as an eyebrow makeover.

Eyebrows are such prominent features and, with the right shaping, they highlight the eyes and accentuate the cheekbones.

The self-appointed "Eyebrow Queen" says the secrets to top brows are to treat yourself to a professional makeover, tend to your brows once a week, use a good cream-to-powder filler and use angled or pointed tweezers to remove new hairs.

Duma says a common myth is that gorgeous eyebrows need to be thin, but the ideal shape is different for every person.

She says lengthening the face can be achieved by heightening the brow arch and exposing more of the brow bone.

The shape of your eyebrows can influence your facial expression. Eyebrows that give the impression of one continuous brow can make the face look angry or sad. Eyebrows that have been overplucked on the inner half may convey a surprised look.

Eyebrow Queen Carmen Duma graduated from a Romanian beauty school and has shaped eyebrows in Australia for 20 years. Her clients include models, dancers and celebrities. Appointments: 9827 7164.
